

CALL FOR SUBMISSIONS

EXHIBITIONS

VU invites artists working in photography to submit an exhibition project. Our goal is to promote innovative practices which demonstrate enquiry into and reflection upon the artistic potential of the medium. Proposals involving video or which address new image technologies are also welcome.

RESIDENCIES

VU invites artists from Quebec working in photography or wishing to experiment with the medium to submit an artist in residence project. We hope to receive new proposals which testify to a process of artistic enquiry and exploration. VU supports emerging practices which contribute to the advancement of the discipline.

VU offers free access to its equipment for a period of two weeks, provides technical support and furnishes lodgings when needed. Projects selected will be put on public exhibition as part of the program of individual shows at centre VU.

With all the necessary equipment for the production of gelatin silver print and digital photography, our production space includes four individual darkrooms, a colour processor, computers and large-format inkjet printers.

• • •

Send us your submission by post mail before 15 September 2008.

It should include:

- a project description
- a list of technical requirements
- 10 to 20 visual documents of recent work
(Mac compatible 72 ppi jpeg files – max 1024 x 768 pixels - RGB)
- your résumé
- any other relevant document
- a stamped return envelope (if you want your submission back)

Selected projects will be included in our 2008-09 exhibition program. Please contact us for additional information.

Since 1981, VU has been dedicated to the promotion and development of contemporary photography. Its principal mandate is to support artistic enquiry and production in the field of photography. VU is one of ten members of the Méduse cooperative.
